Welcome to USA Tax Systems

Thank you for choosing USA Tax Systems Professional Tax Software. We're excited to have you on our team and are look forward to building a lasting relationship together.

As you make the transition to USA Tax Systems, we want to ensure that everything runs as smoothly as possible. The first step of this transition will be converting your clients from ATX to USA Tax Systems. This document contains step-by-step instructions on converting your clients. Please read through it carefully.

We have also included a section noting specifics for each form and line number that is converted to each USA Tax system. The form and line number information is lengthy and is intended for reference purposes only; you needn't read it in its entirety. Information is documented for systems 1040.

If you require assistance during the conversion process, please don't hesitate to contact our support team at 1-800-843-1340. Again, welcome! We look forward to working with you.

Sincerely,

USA Tax Systems

Disclaimer Statement

The goals of the USA Tax data conversion are as follows:

1. To convert only the TAXWISE data (to USA Tax format) that you will need to run the Update Clients, this transfers your 2005 USA Tax data to 2005 USA Tax.

The data conversion is NOT intended to do the following:

1. It is NOT intended to convert all of your data
2. It is NOT intended to allow you to generate a complete and accurate 2005 USA Tax tax return!

Note: Do not process/prepare 2005 tax returns using only the converted information, as tax calculations may not be accurate. Some manual data entry may be required.

Depreciation Worksheet Conversions (All Systems)

- ✍ All Asset will carry to “Do Not Carry” – you will need to assign the form and multiple number manually.
- ✍ If you have overridden any Depreciation calculations please review them for accuracy.
- ✍ If you used 200% declining balance on any farm asset you will need to override the current depreciation.
- ✍ Vehicles split on forms they will carry to “do not carry” or may convert incorrect information.
- ✍ Assets involved in a like kind exchange may not convert properly because of the difference in handling between the two systems. Please review them carefully to make sure the correct information is entered into the USA Tax Depreciation Worksheet
- ✍ We recommend you print a copy of the USA Tax Federal Depreciation Schedule and verify that the USA Tax current depreciation amounts match those calculated by your prior software. Due to the many ways depreciation can be calculated, there may be slight differences that could require manual overrides in the USA Tax Depreciation Worksheet
- ✍ If you had selected to delete the asset next year, the asset will not convert.
- ✍ Assets involved in a like-kind exchange may not convert properly, because of the difference in handling between the two systems. Please review them carefully to make sure the correct information is entered into the USA Tax Depreciation Worksheet.
- ✍ Due to the limited amount of information being converted, if you have current year Section 179, the conversion may calculate a carryforward of these amounts. To remove the unused carryforward, open the USA Tax 2005 Depreciation Worksheet, click the 179 button, and remove any unnecessary information.

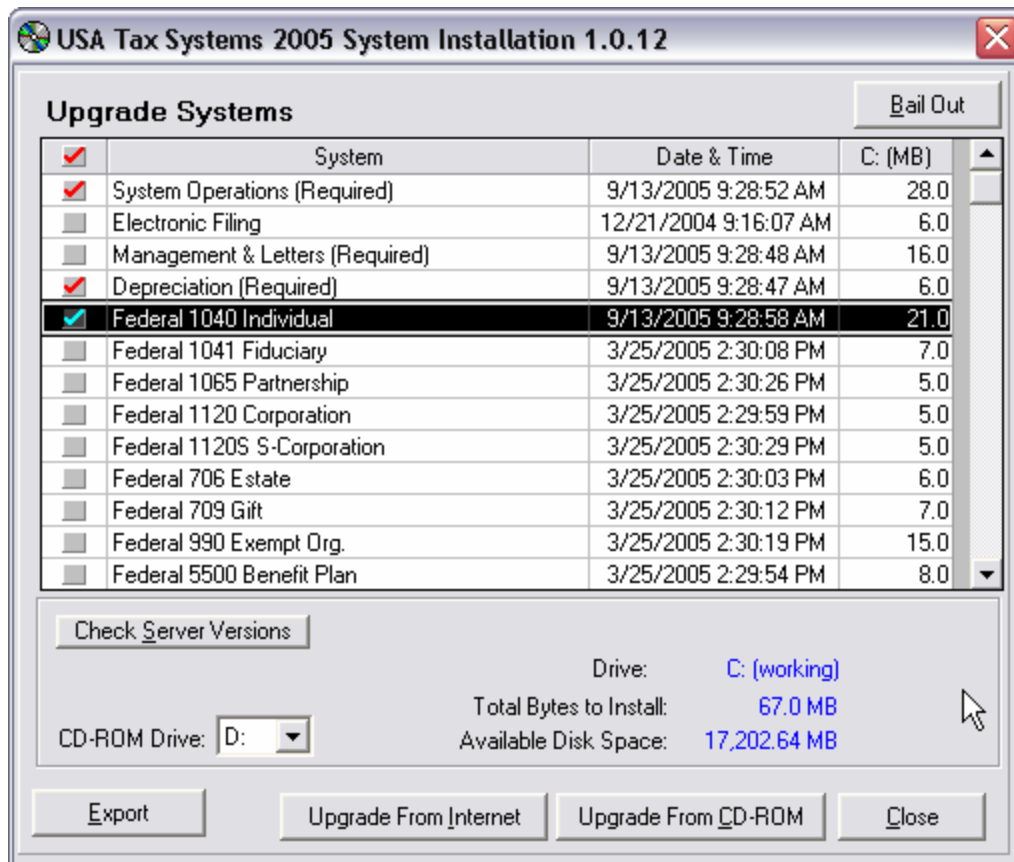

Individual Conversions

Note: USA Tax only converts the information necessary to prepare a Proforma.

- ✍ Preparer Information – Will not convert.
- ✍ State information - Will not convert.
- ✍ Items selected for deletion for next year - May not be taken into account. You may have to manually remove some items after updating to 2005 in USA Tax.
- ✍ Detail statements – All amounts and descriptions may not convert.
- ✍ Non-Calculated Forms – Will not convert.
- ✍ Other Expenses – Limited descriptions will convert.
- ✍ Carry to form number/multiple numbers – Will not convert.

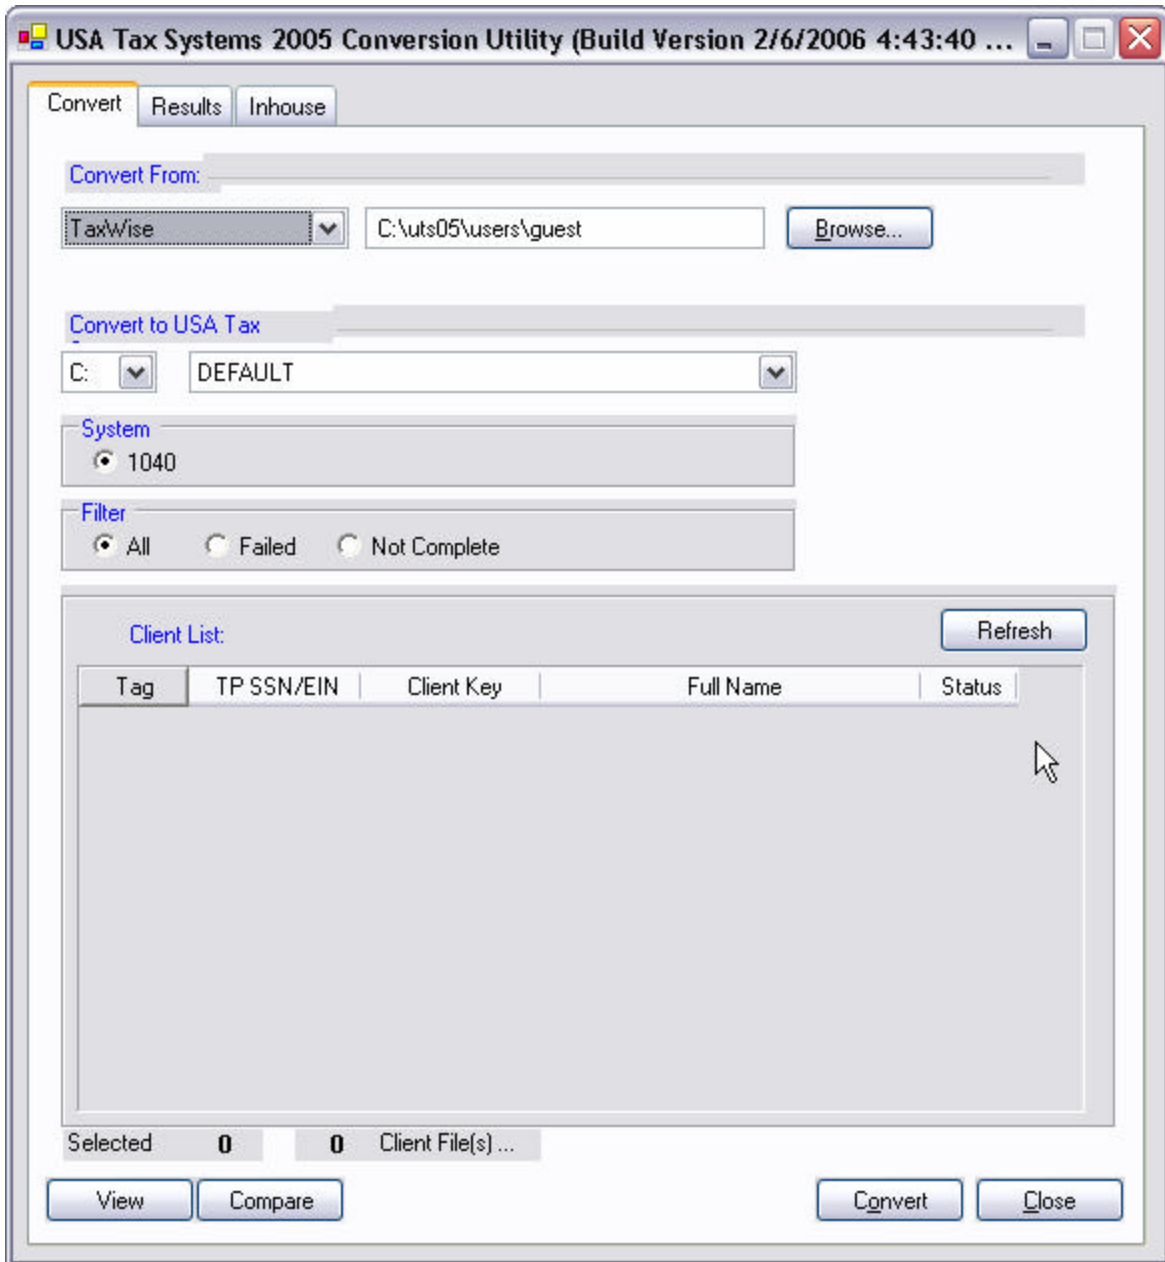

Conversion Process

1. As a precaution, backup your client data in your prior year software package.
2. Install the USA Tax 2005 Demo (follow the installation instructions provided with the demo).
 - a. If you do not have a copy of the demo, call our Sales Team.
3. After the installation is complete, open the USA Tax 2005 Demo by clicking the *USA Tax icon* located on your desktop.
4. If the Client Selection screen appears, click the *Close* button.
5. On the menu bar click "Installations", and then "Upgrade Systems".

6. Tag the following items using your mouse. Do this by clicking on the gray box to the left of the item:
 - a. System Operations
 - b. Depreciation
 - c. Federal Universal (Shared Forms)
 - d. Federal 1040 Individual

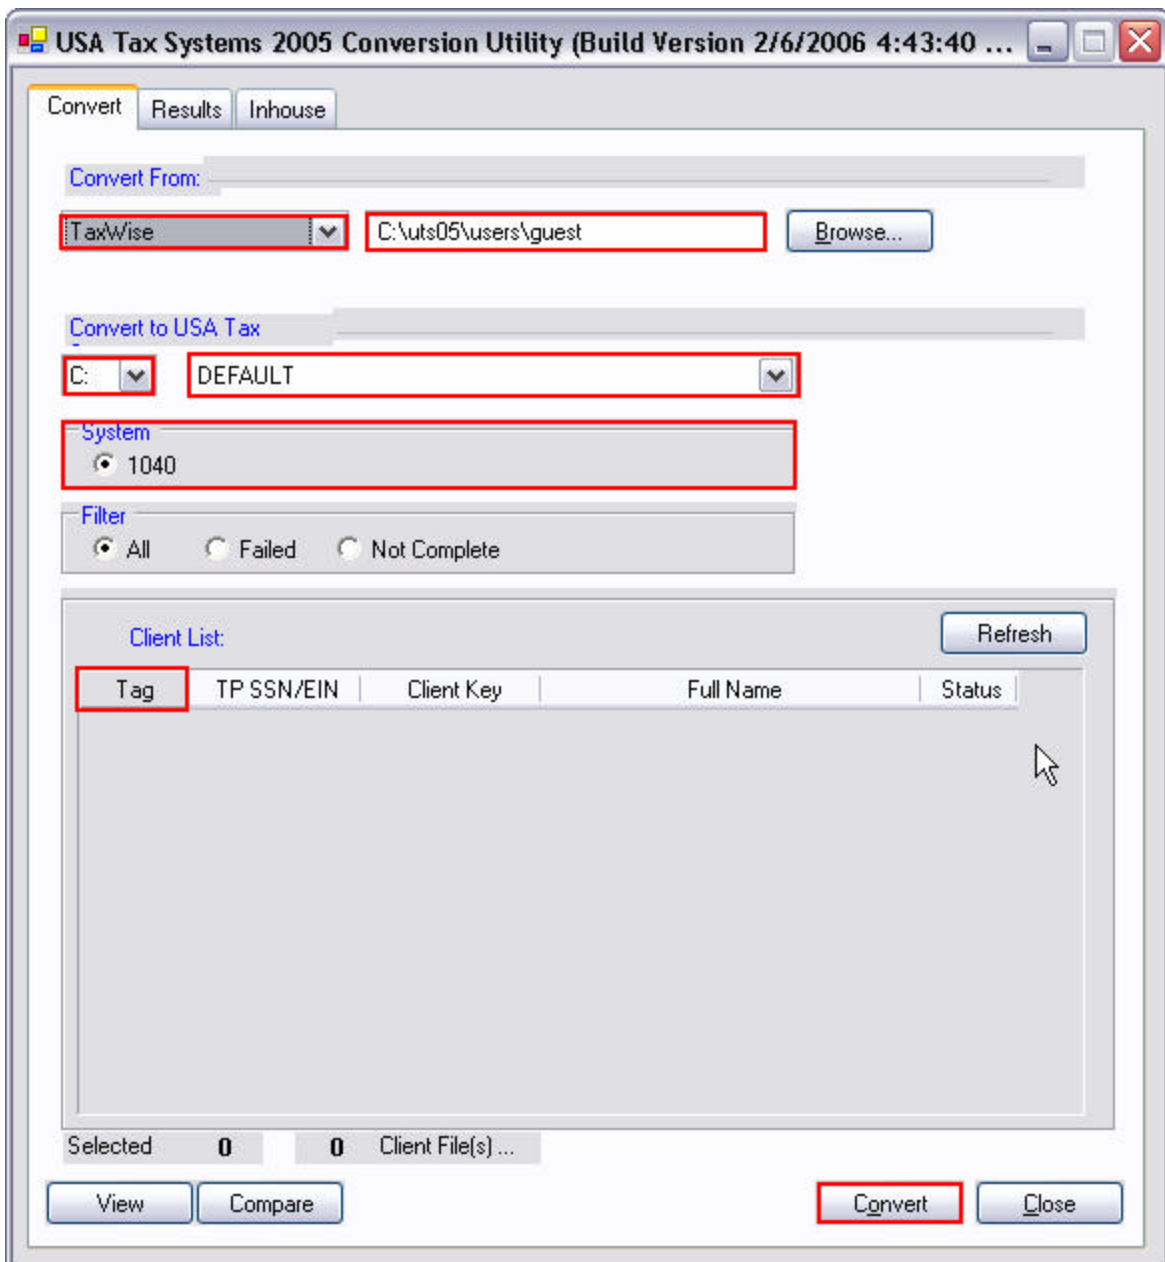

7. Click the *Upgrade From Internet* button (Upgrades may take up to 1 hour).
8. Once the upgrade is complete, click the *Close* button.
9. Files that were upgraded will automatically decompress.
10. USA Tax 2005 will automatically open.
11. If the Client Selection screen appears, click the *Close* button.
12. Click the *File* menu and select *Convert Clients*.
13. USA Tax will automatically close.
14. The USA Tax 2005 Conversion Utility will open.

15. Verify TaxWise Data Path:
C:\UTS05\users\admin (Default TaxWise)

Note: Vendor Data Path will change with system selected at the bottom of the screen.

16. Select the USA Tax Drive (default is C:)
17. Select the USA Tax Folder (default is DEFAULT)
18. Tag the clients you want to convert. Do this by clicking the gray box to the left of the client.
19. Click the *Convert* button.

20. Once the conversion is complete, the status of each client will be displayed in the *Status* column.
21. To view a conversion report. Click the *Results* tab.
22. When you are done click the *Close* button

23. USA Tax 2005 will automatically open.
24. If the Client Selection does not open automatically click, the *Clients* button located on the button bar.
25. Carefully review your converted data files to be sure your converted data is accurate. If you have items that did not convert, manually enter them in the USA Tax program. Double click on the desired client file; or, highlight the desired client and click *Open* located in the left column.
26. Verify that client data stated in the manual converted correctly.
27. If you have any questions or suggestions concerning the conversion process please contact us.
28. Occasionally we will upgrade items in the conversion program. We will post upgrade changes on the web. You may reconvert clients affected by these changes.
CAUTION: Entries made in USA Tax to previously converted clients will be lost.
