

Conversions2006

Welcome to 1040Works (formerly USA Tax Systems)

Thank you for choosing 1040Works Professional Tax Software. We're excited to have you on our team and are look forward to building a lasting relationship together.

As you make the transition to1040Works, we want to ensure that everything runs as smoothly as possible. The first step of this transition will be converting your clients from Creative Solutions to USA Tax Systems. This document contains step-by-step instructions on converting your clients. Please read through it carefully.

We have also included a section noting specifics for each form and line number that is converted to each 1040Works (USA Tax systems). The form and line number information is lengthy and is intended for reference purposes only; you needn't read it in its entirety. Information is documented for systems 1040.

If you require assistance during the conversion process, please don't hesitate to contact our support team at 1-800-843-1340. Again, welcome! We look forward to working with you.

Sincerely,

1040Works

Disclaimer Statement

The goals of the 1040Works (USA Tax) data conversion are as follows:

1. To convert only the Creative Solutions data (to USA Tax format) that you will need to run the Update Clients, this transfers your 2006 USA Tax data to 2006 USA Tax.
2. To convert only the 2006 Creative Solutions data (to 2006 USA Tax format) that will allow you to generate **complete** and accurate Tax Organizers.

The data conversion is NOT intended to do the following:

1. It is NOT intended to convert all of your data
2. It is NOT intended to allow you to generate a complete and accurate 2006 USA Tax return!

Note: Do not process/prepare 2006 tax returns using only the converted information, as tax calculations may not be accurate. Some manual data entry may be required.

Asset Conversions (All Systems)

- ✍ We recommend you print a copy of the USA Tax Federal Depreciation Schedule and verify that the USA Tax current depreciation amounts match those calculated by your prior software. Due to the many ways depreciation can be calculated, there may be slight differences that could require manual overrides in the USA Tax Depreciation Worksheet.
- ✍ If you have overridden any depreciation calculations, please review them for accuracy.
- ✍ If you used 200% declining balance on any farm asset, you will need to override the current depreciation.
- ✍ If you had selected to delete the asset next year, the asset will not convert.
- ✍ Any asset carrying to Sch A points will be depreciated over the life of the asset using the Straight Line Method.
- ✍ Assets involved in a like-kind exchange may not convert properly, because of the difference in handling between the two systems. Please review them carefully to make sure the correct information is entered into the USA Tax Depreciation Worksheet.
- ✍ Due to the limited amount of information being converted, if you have current year Section 179, the conversion may calculate a carryforward of these amounts.

Individual Conversions

Note: USA Tax only converts the information necessary to prepare a Proforma.

- ✍ Preparer Information – Will not convert.
- ✍ State information - Will not convert.
- ✍ Items selected for deletion for next year - May not be taken into account. You may have to manually remove some items after updating to 2006 in USA Tax.

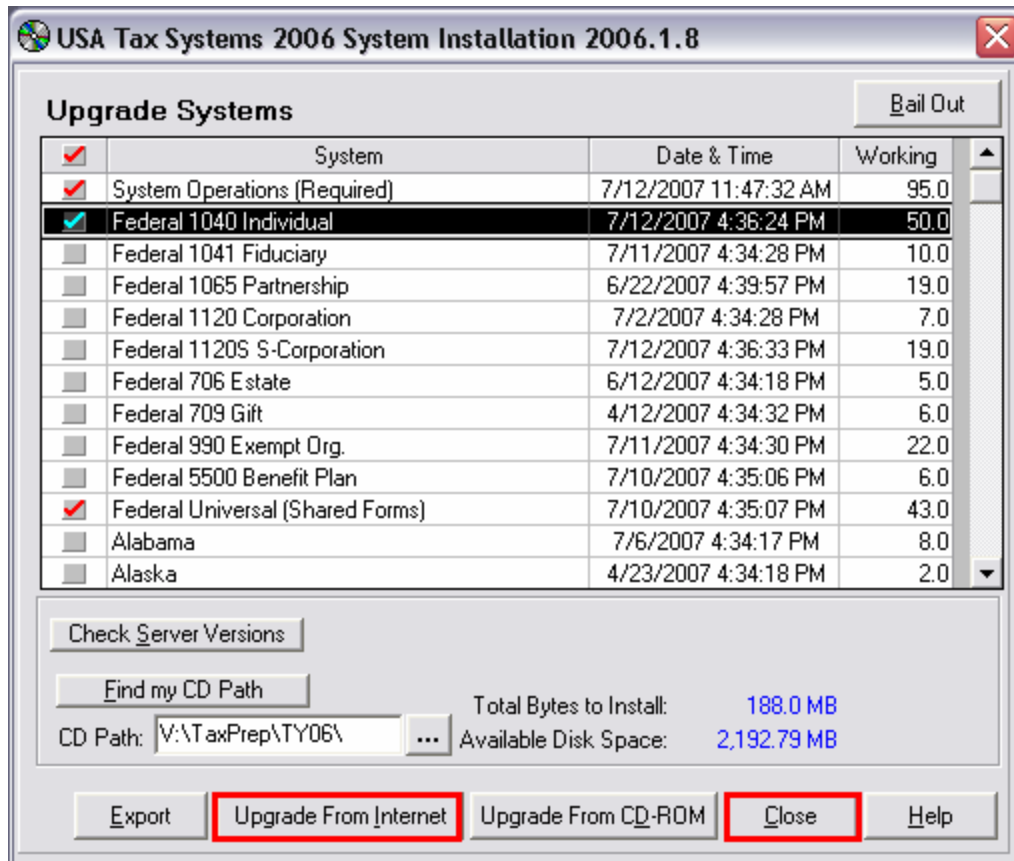

- ✍ Detail statements – All amounts and descriptions may not convert.
- ✍ CSI Non-Calculated Forms – Will not convert.

Business System Conversions

- ✍ 1041 – If multiple beneficiaries have dollar distributions these amounts must be entered manually in USA Tax Tier 1 and Tier 2 allocation boxes.
- ✍ 1041 – Form 5227 - Due to the limited amount of information being converted, carry forward amounts may not convert correctly.
- ✍ 1065 and 1120S – Schedule K Line 18a Type of Sec 59(e)(2) expenditures – Description will not convert; amount will.
- ✍ 1065 - Form 4835 – Will not convert.
- ✍ 1120 - NOL - Utilization amounts will not convert
- ✍ Detail statements – Detail statements – All amounts and descriptions may not convert.
- ✍ Oil & Gas - Will not convert.\
- ✍ CSI Non-Calculated Forms – Will not convert.

Conversion Process

1. As a precaution, backup your client data in your prior year software package.
2. Install the USA Tax 2006 Demo (follow the installation instructions provided with the demo).
 - a. If you do not have a copy of the demo, call our Sales Team.
3. After the installation is complete, open the USA Tax 2006 Demo by clicking the *USA Tax icon* located on your desktop.
4. If the Client Selection screen appears, click the *Close* button.
5. On the menu bar click “Installations”, and then “Upgrade Systems”.

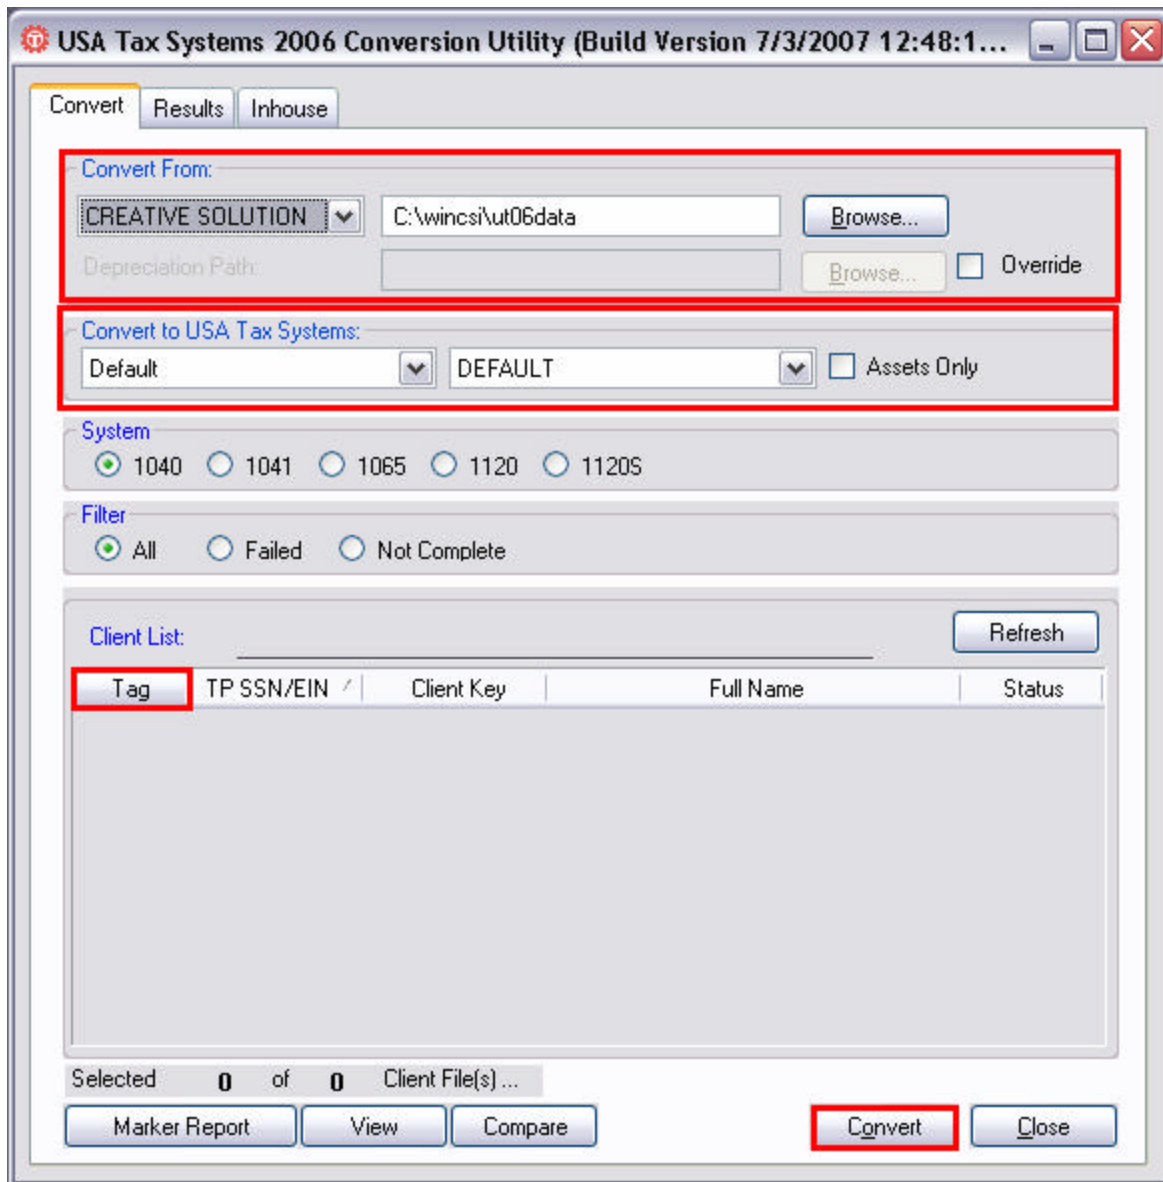

6. Tag the following items using your mouse. Do this by clicking on the gray box to the left of the item:
 - a. System Operations
 - b. Federal 1040 Individual
 - c. Federal Universal (Shared Forms)

Tag only the Federal systems for clients you wish to convert:

- d. Federal 1040 Individual
- e. Federal 1041 Fiduciary
- f. Federal 1065 Partnership
- g. Federal 1120 Corporation
- h. Federal 1120S S-Corporation

7. Click the *Upgrade From Internet* button (Upgrades may take up to 1 hour).
8. Once the upgrade is complete, click the *Close* button.
9. Files that were upgraded will automatically decompress.
10. USA Tax 2006 will automatically open.
11. If the Client Selection screen appears, click the *Close* button.
12. Click the *File* menu and select *Convert Clients*.
13. USA Tax will automatically close.

14. The USA Tax 2006 Conversion Utility will open.

15. Verify Creative Solutions Data Path:

C:\wincss\ut06data (Default Creative Solutions)

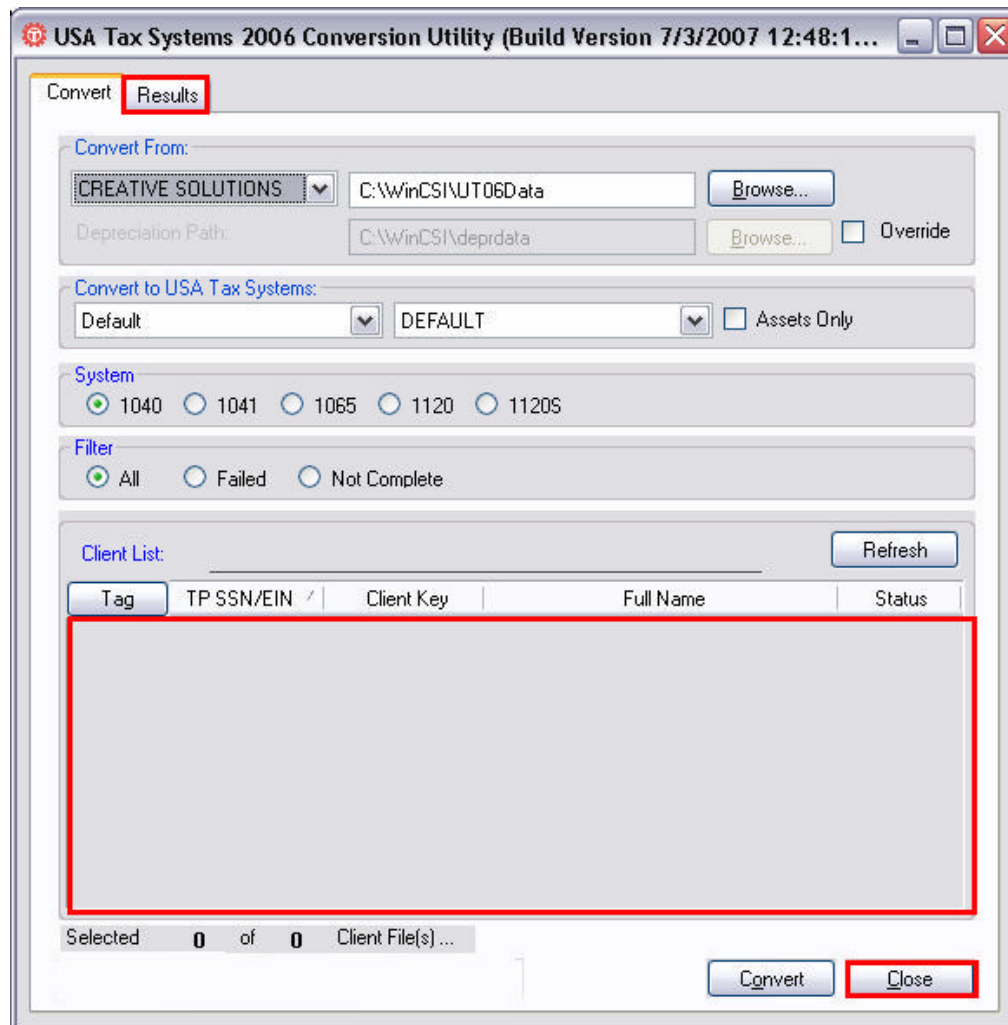

Note: Vendor Data Path will change with system selected at the bottom of the screen.

16. Select the USA Tax Drive (default is C:)

17. Select the USA Tax Folder (default is DEFAULT)

18. Tag the clients you want to convert. Do this by clicking the gray box to the left of the client.

19. Click the *Convert* button.

20. Once the conversion is complete, the status of each client will be displayed in the *Status* column.

21. To view a conversion report. Click the *Results* tab.

22. When you are done click the *Close* button

23. USA Tax 2006 will automatically open.
24. If the Client Selection does not open automatically click, the *Clients* button located on the button bar.
25. Carefully review your converted data files to be sure your converted data is accurate. If you have items that did not convert, manually enter them in the USA Tax program. Double click on the desired client file; or, highlight the desired client and click *Open* located in the left column.
26. Verify that client data stated in the manual converted correctly.
27. If you have any questions or suggestions concerning the conversion process please contact us.
28. Occasionally we will upgrade items in the conversion program. We will post upgrade changes on the web. You may reconvert clients affected by these changes.
CAUTION: Entries made in USA Tax to previously converted clients will be lost.
