## **Welcome to 1040Works 2010**

Thank you for choosing 1040Works Professional Tax Software. We are excited to have you on our team and we are look forward to building a lasting relationship together.

As you make the transition to 1040Works we want to ensure that everything runs as smoothly as possible. The first step of this transition will be converting your clients from your 2010 software package. This document contains step-by-step instructions on converting your clients. Please read through it carefully.

Information is documented for systems 1040, 1065, 1120, and 1120S. Not all forms or fields do convert. The form information is lengthy and is intended for reference purposes only. You needn't read it in its entirety.

If you require assistance during the conversion process, [click here to view our Conversion Video](#) or, don't hesitate to contact our support team at 1-800-843-1139. Again, welcome! We look forward to working with you.

Sincerely,

1040Works Professional Tax Software

## ***Disclaimer Statement***

### ***The goals of the 1040Works data conversion are as follows:***

1. To convert only the data from your software package to 1040Works that you will need to update Clients, which transfers your 2010 1040Works data to 2011 1040Works.
2. To convert only the 2010 data to 2010 1040Works format that will allow you to generate complete and accurate Tax Organizers.

### ***The data conversion is NOT intended to do the following:***

1. It is NOT intended to convert all of your data.
2. It is NOT intended to allow you to generate a complete and accurate 2010 1040Works tax return.

***NOTE:*** Do not process/prepare 2010 tax returns using only the converted information, as tax calculations may not be accurate. Some manual data entry may be required.

## **Depreciation Conversions**

- ✍ We recommend you print a copy of the 1040Works Federal Depreciation Schedule and verify that the 1040Works current depreciation amounts match those calculated by your prior software. Due to the many ways depreciation can be calculated, there may be slight differences that could require manual overrides in the 1040Works Asset Tracker.
- ✍ Verify the Method accurately converted.
- ✍ Verify the Convention accurately converted. Any default Conventions will convert. If there is not a default Convention the direct entry will convert.
- ✍ If you have overridden any depreciation calculations, review them for accuracy.
- ✍ If you had selected to delete the asset next year, the asset will not convert.
- ✍ Assets involved in a like-kind exchange may not convert properly, because of the difference in handling between the two systems. Review them carefully to make sure the correct information is entered into the 1040Works Asset Tracker.
- ✍ Due to the limited amount of information being converted, if you have current year Section 179, the conversion may calculate a carryforward of these amounts. To remove the unused carryforward, open the 1040Works 2010 Asset Tracker, click the 179 button, and remove any unnecessary information.
- ✍ Review automobile mileage conversions when depreciable basis information is not present to ensure that mileage information transfers to the appropriate form and line.

- ✎ Functional categories, location, account code, and division information may not convert or may partially convert. Review any converted information for accuracy.
- ✎ Review the “Method Selected” for vehicle expense deduction computation in the lower right corner of the vehicle tab. 1040Works does not optimize between standard mileage and actual expenses in years other than the first year the vehicle was placed into service. Adjust this field to reflect the proper deduction approach.

### Individual Conversions

**Note:** 1040Works only converts information necessary to prepare a Proforma and Taxpayer Organizer.

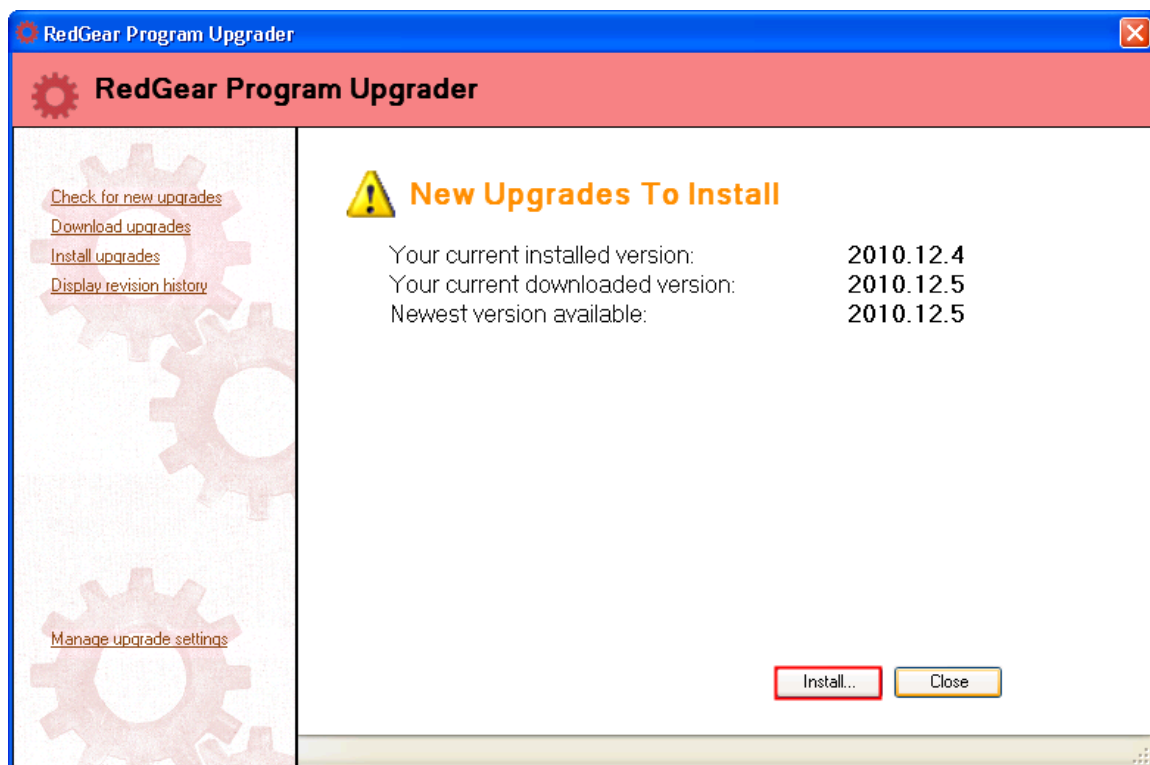

- ✎ Preparer information will not convert.
- ✎ Calculated amounts will not convert.
- ✎ Will convert state information that will update to following year for California, New York and Texas.
- ✎ Schedule A, Line 5 will require verification because not all state information is converted.
- ✎ Schedule B amounts will require verification if nominee distributions or K-1s are present in return.
- ✎ It may be necessary to manually remove some items after updating to 1040Works 2010 because some items selected for deletion for the next year may not be taken into account.
- ✎ Detail Statements – All amounts and descriptions may not convert.
- ✎ 1099 R – Rollover Distribution will not be converted.
- ✎ Form 1116 will need to be reviewed for accuracy due to differences in software formatting.
- ✎ 1040Works 2011 Taxpayer Organizer is available.

### Business System Conversions

- ✎ Detail Statements – All entered amounts and descriptions may not convert.
- ✎ Calculated amounts will not convert. Necessary entries will need to be made.
- ✎ Special Allocations will not convert. Necessary entries will need to be made.
- ✎ Capital Account information will not convert. Necessary entries will need to be made.
- ✎ 1041 – If multiple beneficiaries have dollar distributions, these amounts must be entered manually in 1040Works Tier 1 and Tier 2 allocation boxes.
